ABOUT ME

I began my web development journey in 2022, and since then, I've been deeply invested in learning and improving my skills. Currently, I am exploring my first professional role as a Junior Web Developer, which has been both exciting and challenging. I am always eager to learn new technologies and methodologies. Collaboration is something I truly value, as I believe teamwork often leads to the best solutions. Being part of the software development community has exposed me to a wealth of knowledge and opportunities for growth.

SKILLS

Responsive Web Design ,
TailwindCss,

ReactJs, Nextjs, RestApi

Basic Knowledge in PHP, MySQL,

Git & GitHub, Figma, Other Related
Libraries and Tools

EXPERIENCE

Software Developer who is seeking the work experience in the position as an internship or junior Frontend Developer.
